SRINIVAS POOJARY

Data Analyst | Business Analyst | MIS Reporting

Mumbai, India | 9372607886 | srinivaspoojary188@gmail.com

Portfolio | linkedin.com/in/srinivaspoojary | github.com/SrinivasPoojary

PROFESSIONAL SUMMARY

Data Analyst with 2 years of experience driving business insights across manufacturing and tech sectors. Proficient in transforming raw sales, export, and operational data into actionable MIS reports and interactive Power BI dashboards. Skilled in data modelling, DAX, data cleaning, and KPI tracking using Advanced Excel, SQL (MySQL), Power BI, and Tableau. Seeking Data Analyst, BI Analyst, and Reporting Analyst roles where I can translate complex data into clear, management-ready insights.

EDUCATION & CERTIFICATIONS

Bachelor of Commerce (B.Com) | V.K. Krishna Menon College, University of Mumbai **2020 – 2023**

Data Analyst Certification | ExcelR, Andheri **2023 – 2024**

TECHNICAL SKILLS

Data Analysis: Data Cleaning, Exploratory Data Analysis (EDA), KPI Tracking, Sales & Export Analysis, ETL

BI & Visualization: Power BI (DAX, Data Modelling), Tableau, Interactive Dashboard Development

Databases & SQL: MySQL, SQL (Joins, Window Functions, Subqueries)

Microsoft Excel: Advanced Excel, Power Query, PivotTables, Advanced Formulas (VLOOKUP, INDEX/MATCH), MIS Reporting

Programming & Tools: Python (Pandas, NumPy, Scikit-learn), PowerPoint, Volza (Trade Data), CRM Systems

WORK EXPERIENCE

Data Analyst | Responsive Industries Ltd. (Flooring Manufacturer) **Apr 2025 – Present**

- **Built Power BI dashboards** to track sales KPIs, extracting and querying database records using **SQL (MySQL)**.
- **Analyzed operational datasets** using **Python** (Pandas) and Advanced **Excel** (Power Query) to uncover trends and drive management decisions.
- **Leveraged Volza global trade data** to conduct competitive analysis and generate international export leads.
- **Streamlined executive reporting** by delivering actionable MIS reports and data-driven presentations.
- **Maintained CRM data integrity** to track sales pipelines and improve forecasting accuracy.

Internal Auditor | CNK (Chartered Accountancy Firm) **Aug 2024 – Jan 2025**

- **Analyzed large volumes of financial data** to identify anomalies, discrepancies, and operational risk factors.
- **Validated financial records** for accuracy and strict compliance with internal policies and regulatory standards.
- **Compiled data-driven audit reports**, delivering actionable recommendations to management for process improvements.

Data Analyst Intern | AI Variant **Feb 2024 – Aug 2024**

- **Executed 3 end-to-end analytics projects**, mastering data extraction and transformation using **MySQL** and **Advanced Excel**.
- **Developed 6+ interactive dashboards** in **Power BI** and **Tableau**, deepening practical knowledge of DAX and data modelling.
- **Conducted Exploratory Data Analysis (EDA)** to resolve data quality issues and uncover actionable business trends.
- **Strengthened reporting skills** by translating complex data into clear, management-ready insights for cross-functional teams.

PROJECTS

AdventureWorks Sales Dashboard & Policy Compliance | GitHub | Live: srinivaspoojary.github.io/adventureworks-sales-intelligence

- Built an interactive Power BI dashboard from raw CSV extracts, establishing dimensional relationships and utilizing advanced DAX measures to track core sales KPIs.
- Integrated Sonatype Nexus IQ within the GitHub workflow to conduct automated open-source license compliance and security policy checks on project dependencies.

E-Commerce Analytics | SQL, Excel, Power BI | www.linkedin.com/in/srinivaspoojary/details/projects

- Analyzed large e-commerce datasets using SQL and Excel to identify sales trends, order patterns, and customer purchasing behavior.
- Evaluated payment methods, customer reviews, and delivery timelines across product categories to identify drivers of satisfaction and high-performing orders.
- Built interactive Power BI dashboards with a data model and DAX measures to present key insights.

Solar Power Generation Prediction | Python, Streamlit | github.com/SrinivasPoojary/Solar-Power-Generation

- Performed Exploratory Data Analysis (EDA) to identify trends in solar power generation.
- Built Linear Regression and Random Forest models for energy output prediction.
- Deployed the final model using Streamlit for a user-friendly interface.
